

Alberto Giorgi

"European stage illusion with fantastical machines"

Stage Illusion

Biography

Alberto Giorgi is an Italian illusionist whose theatrical style combines classic elegance with fantastical machines inspired by Jules Verne, H. G. Wells and cinematic fantasy. His official biography describes extensive international television and festival recognition and repeatedly presents the stage work as Alberto Giorgi and Laura. The Fool Us ledger bills Alberto Giorgi, so a person profile is valid, but Laura's recurring role should be reviewed before FindMagic describes the act as solo or creates an act membership relationship.
