

Brian Robert

"Family-friendly comedy magician"

Comedy Magic

Biography

Brian Robert Magic is a comedy magician whose professional, family-friendly magic is built to suit any event, from a small gathering to a large celebration. His stand-up show runs 45 minutes to an hour and leans heavily on comedy and audience participation, so guests are part of the entertainment rather than watching from a distance.

The material is suitable for all audiences, and both the content and the running time can be tailored to the occasion. One audience member called it "the most phenomenal show", noting that adults and children alike were in awe of the tricks - the sort of reaction that makes the act a natural fit for family parties, community events and corporate celebrations.
