

Cameron Braxton

"Texas card magician with a poker-table style"

Close-Up Magic

Biography

Cameron Braxton is a Texas card magician whose Penn & Teller: Fool Us appearance used a poker-table presentation and technical card handling. A contemporary specialist review identifies his Texas connection and describes the televised routine, providing enough evidence for a restrained discovery profile beyond the show ledger. Research did not locate a reliable performer-owned website, current social hub, recent booking offer, exact home city or later public performance schedule. Career and booking fields should therefore remain unknown rather than being inferred from the television appearance alone.
