*"Close-up magician and mentalist"*

Based in Paris | Close-Up Magic | Mentalism

---

## Biography

Cyril has practised magic since 1995 and is a recognised professional magician and mentalist, specialising in close-up magic created inches from the guests. In recent years he has enriched his art with mentalism, blending mystery, psychology and astonishment.

Modern and convivial, his performances are interactive and punctuated with elegance and humour, shaped around the audience and the spirit of the occasion, whether that is a chic wedding, an intimate evening or a large convention. Through his company Anim'Prod, a wedding can extend further still, with fireworks, a photo booth, giant wooden games, creative workshops for children, and DJs and musicians. The aim throughout is simple: everyone leaves light-hearted, bright-eyed and smiling.
