Biography

Daniel Schwartz is a Vancouver-based magician and UBC nephrologist who brings wonder, wit, and a healthy dose of science to the stage.

By day, Dr. Schwartz specializes in kidney care and medical education; by night, he transforms complex ideas-and a deck of cards-into unforgettable sleight of hand.

(Fair warning: when Daniel takes the stage, urine for a treat.)

Alongside his son, award-winning magician Jack Schwartz, Daniel is the co-creator and co-star of Generations: A Magic Show, blending generational charm, razor-sharp magic, and warm father-son banter.
