

Danny Mendes

"Paris-region magician and mentalist"

Based in Paris | Mentalism

Biography

Danny Mendes is a magician and mentalist working across the Paris region, with modern, interactive shows made for companies, weddings, children and private parties.

The magic happens in the guests' own hands: an object held by one guest changes without anyone understanding how, while another makes a completely free choice and discovers it was predicted from the start. Glances are exchanged, laughter breaks out, and nobody can explain what has just happened. One wedding client recommends him "100%", praising the way he got people taking part by mixing humour and magic. He performs in Melun, Fontainebleau, Meaux, Chessy, Serris, Évry, Massy, Versailles, Créteil, Boulogne-Billancourt and Saint-Denis, tailoring each performance to weddings, birthdays, corporate events and children's shows.
