

David Hirata

"Seattle close-up and stage magician"

Based in Seattle | Close-Up Magic | Mentalism | Stage Magic

Biography

David Hirata is a close-up and stage magician working across the Seattle metro area, performing under the banner of Thingsimpossible Productions.

His magic travels easily between rooms: full stage performances in theaters, personalized shows in people's homes, and close-up work at arm's length in restaurants and clubs. That range means the same performer can hold a seated theater audience and then astonish a small circle of guests standing inches away. David has brought his magic to companies including Nabisco, Genentech, C&H Sugar and REI, and his work suits corporate events, private parties and celebrations where guests are looking for something genuinely impossible to happen in front of them.
