

Derren Brown

"Enter the Mind of a Master Mentalist."

Based in London | Mentalism

Biography

Derren Brown is the internationally acclaimed mentalist and psychological illusionist who transformed mind reading into sophisticated theatrical entertainment. Blending suggestion, misdirection, psychology, magic, and razor-sharp showmanship, he creates astonishing experiences that challenge what audiences believe about choice, influence, and the workings of the human mind. Intelligent, provocative, and frequently unnerving, Derren Brown does more than leave audiences wondering how-it leaves them questioning everything they thought they knew.
