

Diego & Elena

"Spanish aerial quick change with poetic visual storytelling"

Based in La Cabrera | Stage Illusion

Biography

Diego & Elena are the Spanish multidisciplinary circus duo of Diego García and Elena Vives. Working together since 2007, they combine aerial technique, visual theatre, balance and magic, including an aerial quick-change act developed through years of collaboration with illusionists. Their official site records Fool Us, international festival appearances, multiple awards, current productions and a 2026 calendar. Direct contacts support Spanish and international bookings, while the company's published La Cabrera creative-space address supplies a defensible operational base without asserting a private residence.
