

# DK

*"Korean visual magician shaping light and shadow"*

Close-Up Magic | Stage Magic

---

## Biography

DK is a South Korean magician, creator and magic director known for elegant visual work with light, shadow and close-up objects. Korean media documents his 2024 management representation after reaching the final group of The Magic Star, while a current booking profile offers a thirty-minute-or-longer close-up magic show and records television consulting, competition awards and Penn & Teller: Fool Us. The evidence supports an active, bookable professional identity, but no reliable performer-owned site or expanded public name was found, so name normalization requires review.
