

Ekaterina

"Toronto cardistry, close-up magic and creative consulting"

Based in Toronto | Close-Up Magic | Stage Magic

Biography

Ekaterina, also known as Ekat, is a Toronto-based magician, cardist, creator and consultant with an international television and corporate career. Her official company site maintains an active catalogue of original magic and learning material, while its contact page identifies Toronto, names corporate clients and offers an enquiry form and direct email. Her work spans close-up performance, cardistry, visual card magic, consulting and instruction. Because the available official material does not publish a longer professional name, the established one-word billing should be preserved.
