

Fabien Olicard

"Mentalist, author and YouTuber"

Mentalism

Biography

Fabien Olicard is a mentalist with a passion for the mind, science, human psychology and illusion, and a performer who has always liked to understand things, ideas and people.

On stage with his fourth show, he blends comedy and mentalism into something captivating, quick and above all funny, driven by a wish to surprise and to pass on his passion with humour. Away from the theatre he makes videos regularly for YouTube and shares his mentalist's tricks in his books, so the teaching sits alongside the astonishment. That mixture of playful comedy and genuine mystery travels easily from a theatre stage to a gala, a company party or a private celebration.
