

George A. Magician

"Sleight-of-hand and stage magician"

Close-Up Magic

Biography

With more than 50 years of performing behind him, George A. Magician builds a show around illusions, sleight of hand, and mind-bending tricks that leave people spellbound. His guiding idea is simple: the show is about the audience, not the magician, and laughter counts as much as astonishment.

Audiences get magic that defies explanation together with the joy and smiles his reviews describe among keiki and adults alike. George works from intimate gatherings to grand stage shows, and turns up prompt, personable and reliable, with the attention to detail that keeps an event running smoothly. It is entertainment made for family celebrations, parties and stage bookings where wonder and good humour matter in equal measure.
