

Gerardo Martínez

"Award-winning stage and close-up magician"

Based in Vallejo | Close-Up Magic | Comedy Magic | Corporate Events

Biography

Germar opens his award-winning stage show with a seven-minute musical act that includes dove productions, card manipulations and great music, then shifts into comedy and magic built on props and routines never before seen in the USA. The show is fast, funny and full of energy, with intense audience participation.

His close-up act, performed for small groups at a table for three to five minutes at a time, has won many awards. Drawing on 15 years of experience, Germar creates the atmosphere of an intimate family gathering, which makes him a natural host for corporate events, company parties and trade-show booths. For children's shows he makes animal shaped balloons and finishes with a little rabbit appearing from an empty hat held by three children.
