

Gonzalo Mateos

"Young Spanish mentalism fused with playful modern technology"

Mentalism | Stage Magic

Biography

Gonzalo Mateos is a Spanish mentalist whose contemporary performances combine apparent mind reading, audience choices and modern technology. His official site documents appearances on Penn & Teller: Fool Us and Spain's Got Talent, promotes current theatre dates and provides a direct contact form for professional enquiries. The material supports an active performer working across live stages, television and event settings, with a style aimed at making technological ideas feel personal and impossible. Research did not establish a stable current home city or reveal a public direct booking email, so the profile should use Spain as the supported location.
