

Graham P Jolley

"Award-winning British mind reading with sharp comic timing"

Close-Up Magic | Comedy Magic | Mentalism

Biography

Graham P Jolley is a British mind reader and magician with more than thirty years of professional entertainment experience. His official site offers corporate programs, private-event performances and close-up or stage mind reading, supported by major client testimonials and direct contact details. Jolley's style combines apparently impossible thought reading with jokes and broad multigenerational appeal, and he holds Inner Magic Circle recognition with Gold Star. He won a Fool Us trophy on the original British season in 2011. The evidence supports active United Kingdom and international bookings but does not clearly establish his current home city.
