

Jaana Felicitas

"Stuttgart dance illusion where objects become expressive partners"

Based in Stuttgart | Stage Magic

Biography

Jaana Felicitas is a Stuttgart dancer, choreographer and magician whose work merges contemporary movement with poetic visual illusion. Her performer-controlled site describes The Floating Chair, a signature pas de deux in which an ordinary chair appears to acquire weightlessness and emotional agency, developed with leading German magic creatives. Felicitas has presented the act at international festivals, won major German and Dutch honors and appeared twice solo on Fool Us before returning in a trophy-winning duo performance. Her site supports current stage and festival enquiries, although no public direct booking email was found.
