

Jason Andrews

"Las Vegas comedy illusion sharpened with danger and classic skill"

Based in Las Vegas | Comedy Magic | Stage Illusion | Stage Magic

Biography

Jason Andrews is a Las Vegas magician and variety entertainer whose work combines comedy, classical manipulation, stage illusion and feats of danger. His professional profiles document headline shows, cruise work, Masters of Illusion and Penn & Teller: Fool Us, where he crossed broken glass and a barrier of bottles. Andrews won first place and the people's-choice award in the International Brotherhood of Magicians stage competition in 2010 and built longer-form shows from an award-winning silent act. Current self-authored professional listings support an active Las Vegas career, although a dependable performer-owned website and direct public booking contact were not found.
