

# Jason Palter

*"Award-winning, Penn & Teller: Fool Us"*

Mentalism | Stage Magic

---

## Biography

Jason Palter is a Canadian magician and inventor associated with the corporate act Mystivate and the magic-product company Paltergeist. Reference and agency material describe an energetic mixture of stage magic, mind reading, large-scale illusion, audience participation and comedy, alongside created effects such as Third Degree Burn. Palter appeared on Penn & Teller: Fool Us and has historical ties to the Toronto area. Research did not find a functioning performer-controlled website, a reliable recent public performance, a current direct booking contact or enough evidence to state that he remains professionally active, so this should be a conservative historical profile.
