

Jazzman S

"Queens bass and magic meeting in one musical act"

Stage Magic

Biography

Steven Palmore, billed as Jazzman S, is a Queens-based magician and professional bassist whose Fool Us routine fused a personal music story with a classic stage illusion. Contemporary episode coverage independently confirms his appearance, while magic-industry reporting supplies the Jazzman S name, Queens connection and bass career. The act's unusual crossover gives FindMagic a clear, defensible specialty description without inventing broader services. Research did not locate a performer-owned website, recent show calendar, direct professional contact or evidence that Palmore currently accepts magic bookings, so this should remain a factual non-bookable profile.
