

Jeffrey Wang

"Precision coin magic defined by elegant sleight of hand."

Close-Up Magic

Biography

Jeffrey Wang is a Chinese close-up magician specializing in technically refined coin magic and sleight of hand. His official OJ Magic studio presents his current creative work and performer-controlled social links, while FISM Asia records a 2024 micro-magic result representing China. Wang has published lectures and instructional material for magicians and brought a visual coin sequence to Penn & Teller: Fool Us. The evidence supports an active creator and competition career, but it does not establish a current home city, direct public booking contact or whether he accepts general private and corporate engagements.
