

# Jin Hyoung Han

*"Korean micro magic built from close connection and exacting technique"*

Close-Up Magic

---

## Biography

Jin Hyoung Han is a South Korean close-up magician specializing in micro magic. Official FISM Asia results correct an earlier program-name error, identify him as representing the Republic of Korea and record his 2024 qualification for the world championship. Korean magic reporting then lists him among the country's competitors at FISM Italy 2025, confirming continuing high-level activity after his cups-and-balls appearance on Penn & Teller: Fool Us. The sources establish identity, country and specialty but do not provide a performer-owned website, current home city, direct booking contact or evidence that he accepts general event work.
