

Joe Labero

"Internationally renowned illusionist and close-up magician"

Based in Stockholm | Stage Illusion

Biography

One of the world's most successful magicians, Joe Labero brings long experience from the biggest international stages, and he is the mind behind some of the most astonishing illusions an audience will ever see.

His show Labero's Magic World is an exclusive evening of what he calls "boutique magic": illusions woven with a touch of mystique, every act shaped to feel personal and close. Alongside his favourite pieces come the famous close-ups, performed on the borderland between dream and reality, where everything thought possible or impossible is turned upside down. After sold-out spring tours in 2025 and 2026, the acclaimed production returns in the autumn of 2026, produced by Krall Entertainment, which stages entertainment throughout Sweden.
