

JR Smith

"Las Vegas mentalist and comedy magician"

Based in Las Vegas | Comedy Magic | Corporate Events | Mentalism

Biography

Las Vegas based mentalist and magician JR Smith builds adult-forward entertainment for people who want something smarter than a typical magic show. His act mixes psychological deception, wit, and impossible moments, delivered in a tone that is intimate, confident, and deliberate: no cheesy mystic nonsense, no kiddie-show energy.

Having headlined the Las Vegas Strip and performed for audiences across the country, JR Smith trades overblown spectacle for premium intimacy - working a cocktail crowd, hosting a room, or delivering a featured set so the evening feels elevated and unlike anything else on the schedule. The result suits private events, corporate parties, weddings, trade shows and college events, and it is built to leave people talking long after the night ends.
