

Julien illusionniste

"Reims close-up magician and mentalist"

Close-Up Magic | Mentalism

Biography

Julien illusionniste is a professional magician and mentalist based in Reims, mixing sleight of hand with humour, psychology, suggestion and misdirection so that the guests themselves end up in the spotlight.

His close-up work moves through a room table by table, small group by small group, using cards, coins, everyday objects - and sometimes nothing at all - always within arm's reach and always with the audience's help. More than 25 years of studying magic go into choosing effects that leave people with mystery, surprise and plenty of laughter. He performs at weddings, corporate dinners and seminars, and has taken the act from Reims to Paris, Biarritz and the Seychelles, working across France and internationally.
