

Keona

"Warm British mentalism built from colorful choices and clever reversals"

Mentalism | Stage Magic

Biography

Keona is a British magician and mentalist who has appeared twice on Penn & Teller: Fool Us. Creator Martin T. Hart's professional site documents both routines and describes a witty, warm performance personality, while The CW confirms her return in the 2026 season with a new prediction effect. The acts use clear everyday choices, colorful props and carefully staged reversals to create approachable television mentalism. A performer domain is identified by the creator, but indexed evidence does not establish Keona's age, current home city, direct booking contact or general availability for private and corporate events.
