

Kimoon Do

"Award-winning Korean card magic with elegant visual invention"

Close-Up Magic

Biography

Kimoon Do is a South Korean card magician, lecturer and prolific creator of close-up material. Current industry catalogues carry numerous routines under his name and describe lecture tours in China, Japan and Spain, while official competition records place him third in card magic at the 2025 FISM World Championship after earlier international results. His Fool Us appearance earned a trophy with a polished visual card act. Research did not locate a dependable performer-controlled website, current home city, direct booking contact or evidence that he accepts general event engagements, so the profile should not advertise availability.
