

Kolos

"Hungarian card artistry turning family stories into visual time travel"

Based in Budapest | Close-Up Magic | Stage Magic

Biography

Kolos Párkányi performs as Kolos, a Hungarian magician represented for international engagements from Budapest. His current agency profile offers up to ninety minutes of English-language material and documents professional work from luxury ships to the Kennedy Center, television competitions and international conventions. Kolos won a Fool Us trophy with a multi-phase card routine framed as magic passed from his grandfather to his father and then reinvented for the present. His performance combines exact sleight of hand, visual transformations, music and storytelling. Current representation supports bookings, though research did not locate a reliable performer-owned website or direct email.
