

Les French Twins

"Digital illusionists, AI and hologram magic"

Based in Paris | Close-Up Magic | Corporate Events | Parlour Magic | Stage Illusion

Biography

Tony and Jordan, the French Twins, mix magic, artificial intelligence, VFX and technology into performances made for luxury parties and corporate galas worldwide.

Their work is built to be experienced rather than watched. Guests interact live using their phones, the digital world breaks into reality as objects come out of the screen, a hologram of a spectator appears on stage and can be felt when touched, and an artificial intelligence reveals the thoughts of the audience in real time. IBM, Orange, YSL, Optical Center and Turisanda have all commissioned tailor-made pieces, and Christian Louboutin brought the twins to a Dubai rooftop to unveil new fragrances for 30 VIP guests. The shows are designed specifically for corporate and private events.
