

Louis Bocquillon

"Close-up magician and teacher"

Based in Paris | Close-Up Magic | Kids & Family

Biography

Louis Bocquillon is a close-up magician who performs inches from his audience, moving from table to table and group to group so that the magic happens in the guests' own hands. It is interactive work, built on the small, immediate surprises that land best when everyone is gathered close.

His magic suits evenings, corporate events, birthdays and weddings, adding a moving, personal moment to a room rather than a show that keeps everyone in their seats. Away from performing, Louis also teaches: group workshops cover a wide range of close-up routines and let participants swap ideas and progress together, while private lessons are tailored to each student.
