

Luke Jermay

"Mind reading that feels impossibly real."

Based in London | Mentalism

Biography

Luke Jermay is a British magician, mentalist, author and one of the influential creative voices in modern mentalism. Known for sophisticated psychological illusion and deeply theatrical mind reading, he has performed internationally and worked behind the scenes as a consultant and creator for performers including Derren Brown, Criss Angel and Dynamo. Jermay's performances favor intimacy and psychological tension over traditional spectacle, creating the unnerving impression that thoughts, choices and even hidden memories may not be as private as they seem.
