

Magic With Tai

"Corporate close-up magician"

Based in Vancouver | Close-Up Magic | Corporate Events

Biography

Magic With Tai is a close-up magician who works inches from the audience, bringing mind-bending illusions and interactive performances straight into the hands of the guests rather than staging them from a distance.

The appeal of close-up work is that nobody watches it from the back of the room. Small groups gather in, something impossible happens where everyone can see it clearly, and the conversation carries on from there. Tai's magic is built for corporate events, filling the moments when guests are arriving and mingling and giving a room something to talk about long after the evening ends. It also suits receptions, parties and private celebrations where entertainment needs to move easily from table to table.
