

Mago Izaak

"León children's and family magician"

Based in León | Kids & Family | Stage Magic

Biography

Mago Izaak is a magician for children and for the whole family, working from one guiding idea: the star of the show is the audience. The magic does not stay at a safe distance - it lands in the hands of the youngest guests, who find themselves holding the impossible while everyone else watches.

Based in León, he shapes each performance around the people in the room, so the biggest reactions come from the children themselves rather than from any prop. It is a show pitched to be enjoyed at every age at once, which makes it a natural fit for children's parties and for family celebrations where small children, parents and grandparents are all together.
