

Manuel Martinez

"Character comedy and original magic honed on international cruises"

Based in Canterbury | Comedy Magic | Stage Magic

Biography

Manuel Martinez is a comedy magician known for a deliberately eccentric character that blends original stage magic with sustained comic performance. His current agency describes him as one of the cruise industry's busiest comedy acts and documents global appearances across ships, theatres and television, including Penn & Teller: Fool Us and Undercover Magic. The professional representation page provides an active enquiry route for availability and showreel access. Research did not locate a reliable performer-owned website, direct personal contact, full current biography or dependable home city, so those fields remain open rather than inferred from his UK representation.
