

Marc DeSouza

"Philadelphia conjuring shaped by competition craft, structure and deep invention"

Based in Philadelphia, PA | Close-Up Magic | Mentalism | Stage Magic

Biography

Marc DeSouza is an American magician, creator, lecturer and competition specialist with a long-standing connection to the Philadelphia magic community. Current retailer catalogues preserve his extensive close-up, stand-up, mentalism and teaching material, while the Magicians Alliance of Eastern States lists him in a 2026 convention talent role. He has appeared twice on Penn & Teller: Fool Us with different routines. Research did not find a dependable performer-controlled website, current public booking offer, direct contact or exact home city. FindMagic should document his active professional and educational work without presenting him as generally available for events.
