

Mason King

"Edinburgh Fringe mentalist"

Mentalism

Biography

Mason King is a mentalist with an original, contemporary take on performing at events, and a regular at the world-famous Edinburgh Fringe Festival as well as festivals and live events across the UK.

His approach is tailored to each occasion, and at receptions he makes a point of reaching everyone in the room: one couple with over 100 guests reported that they had yet to meet a single one who had not seen or interacted with his magic. Guests describe being amazed, and keep talking about the performance long after the day itself. Fellow performers rate him as one of the most professional and reliable entertainers around, which makes him a natural fit for weddings, private celebrations and corporate events, alongside his own live show.
