

Matt Parro

"Award-winning UK close-up and iPad magician"

Close-Up Magic | Corporate Events | Mentalism

Biography

Award-winning magician Matt Parro performs fresh, modern close-up magic with coins, cards, everyday objects and technology, along with effects where he reads minds. Many of his effects have never been seen before, built from ideas he develops himself.

He also leads the industry in digital magic, creating bespoke illusions on an iPad and iPhone that can be built around a company's brand or logo. In over 20 years he has worked with Samsung, Casio and Spotify, been featured in The Sun and on BBC Television, performed for BBC's Children in Need, and wowed James Corden at a corporate event Corden hosted. In 2015 he became one of the youngest ever chairmen of The Sussex Magic Circle. Recent bookings have taken him to Gstaad and to Qatar for a month, and he is equally suited to weddings, corporate dinners and private parties.
