

Mister Danny

"Award-winning Chicago Magic Lounge magician"

Based in Chicago | Close-Up Magic | Virtual Shows

Biography

Award-winning magician Mister Danny keeps two careers running at once: he is a high school science teacher as well as a headliner, and a regular fan-favorite at the Chicago Magic Lounge.

His stand-up show fills a stage with very little in the way of props, relying instead on lively audience engagement and a mix of modern and classic magic. It is a formal set built for a room that is watching together, with guests brought into the action rather than left to sit back, and the teacher's knack for holding a crowd's attention doing much of the work. Mister Danny suits galas, company parties, weddings and any occasion with a stage and an audience ready to be surprised.
