

Mnemonic Memory Companion

The illustrated reference to all 52 memories

One picture. Two directions.

Use the same images and stories as the FindMagic lessons to connect each position to a card, and each card back to its position.

By position Positions 1-52, in stack order.

By card Ace-King: Clubs, Hearts, Spades, Diamonds.

Practise before you peek. Cover the answer and reconstruct the scene. Name the position, the value character and the suit action; then check your recall.

Mnemonic is the memorized-deck order devised by Juan Tamariz. This companion reproduces the visual memory stories taught in the FindMagic course.
