Biography

Billed as the real-life Wizard of Oz, Oz Shemesh is a member of the world famous Magic Castle, where his work centres on card magic and mentalism - the sleight of hand that happens inches from a guest's own hands, and the thought-reading that lands somewhere harder to explain.

With over a decade of experience, Oz has performed in hundreds of shows and events, and returning clients describe him as captivating and masterful at his craft, leaving a room in awe. One firm booked him for two of its holiday events, a good measure of how the act plays for corporate parties, galas and private celebrations that want mystery rather than spectacle.
