

Paul Romhany

"International Magician & Comedian"

Based in Vancouver | Close-Up Magic | Comedy Magic | Mentalism

Biography

A seasoned professional entertainer, Paul Romhany has carried his magic and comedy to more than one hundred countries and appeared on seventeen national television shows.

Billed as an international magician and comedian, Romhany works with the two things a life of touring teaches best: magic that reads clearly to a whole room and comedy that lands without needing translation. It is an act shaped by years on the road rather than by a single stage, and it carries the ease of a performer who has stood in front of just about every kind of audience there is.
