## Biography

Pere Rafart Arza is a Catalan magician whose current production Màgia i confeti combines traditional conjuring with humor, quick pacing, technology and audience interaction. The Government of Catalonia's cultural calendar documents a 2026 public performance and describes a giant LED screen that lets theatre audiences follow fine details of the magic. Rafart also fronted the 3Cat television series Tria una carta and has appeared on Fool Us. Research did not locate a dependable performer-owned website, direct contact, one current home city or a general private-event booking offer.
