

Raymi Phénix

"French mentalism exploring perception, hypnosis and the mind"

Mentalism

Biography

Raymi Phénix is a French mentalist, hypnotist, trainer and consultant whose work explores perception, psychology and unusual sensory experience. His official site presents the interactive one-man show Et Si, plus conferences, professional training and private consultation. The biography identifies Nice as his birthplace, but research did not convert that into a current home city. Raymi's stage work uses humor, persuasion and audience participation, while his broader practice includes hypnosis and communication education. A performer-controlled contact route supports current enquiries in France and nearby markets, though no direct booking email is publicly indexed.
