

Reuben the Entertainer

"Comedy magician and school speaker"

Comedy Magic

Biography

Reuben the Entertainer is a comedy magician and speaker whose work spans two very different rooms: event stages, where magic and laughter carry the evening, and school halls, where that same energy is put to serious use.

His high-energy interactive comedy workshops for schools tackle bullying, internet safety and well-being, using humour and audience involvement to hold a young crowd's attention on subjects that matter. For events, Reuben brings a comedy magic set built on the same instinct for reading a room and keeping everyone in it involved, making him a natural fit for celebrations and gatherings where guests have come to enjoy themselves and laugh together.
