Biography

Award-winning table magician Rich Magic blends sleight of hand with coins and cards, mindreading and pickpocketing into a fresh, modern act framed with humour and show.

He works the room table by table, giving each group around ten minutes of close-up magic nobody can quite explain, which makes him a natural ice-breaker at company parties, conferences, trade fairs, weddings, receptions and anniversary celebrations. He also presents stage shows, magic workshops where guests take a look behind the scenes and learn a few tricks of their own, and interactive children's shows. Performing more than 150 times a year at business and private events, with years of experience across the Benelux, Rich Magic counts among the most booked magicians in the Netherlands.
