

Robin Matrix

"Modern interactive close-up and stage magician"

Based in Haarlem | Close-Up Magic | Stage Magic

Biography

With over twenty years of experience, more than 230 shows a year and hundreds of five-star reviews behind him, Robin Matrix is the magician who brings people together. His style is modern, stylish and interactive, and his magic breaks down barriers and gets conversations moving.

He works both close-up and on stage: during a drinks reception or dinner he moves between the guests, surprising small groups with tricks that happen literally under their noses, while a stage show adds storytelling and larger visual effects for bigger groups. In one evening he will often combine the two. The shows are built for adult and business audiences, from company parties, conferences and trade fairs to weddings, anniversaries and birthdays, and he also gives magic workshops for guests who want to try it themselves.
