

Sebastian Nicolas

"Sleight-of-hand performances that make time seem to disappear."

Based in Munich | Stage Magic

Biography

Sebastian Nicolas is a German magician renowned for his elegant, highly visual manipulation magic. A second-prize winner in Manipulation at the 2009 FISM World Championships of Magic and recipient of the Mandrake d'Or, Nicolas has built a signature act around one irresistible idea: manipulating time itself. Watches appear from nowhere, vanish, transform and dissolve as cards, balls and everyday objects become part of a beautifully choreographed world of impossible moments.
