

Simon Pegg (artist)

"Close-up and mind reading magician"

Close-Up Magic | Corporate Events | Mentalism

Biography

Simon Pegg makes magic for adults who appreciate childlike wonder, and for anyone who wants to feel that way again. His speciality is close-up magic performed among the guests, moving from group to group and sharing pieces at arm's length, which makes it a natural fit for a cocktail hour or a social event.

For a seated audience, Simon offers a 50 minute Table Show built from card magic, mind reading and moments guests simply won't believe. The pace stays conversational and the astonishment lands close enough to watch from inches away, suiting weddings, private celebrations and company parties where the entertainment needs to work in the round rather than from a distant stage.
