Biography

The Beckers are Fred and Bobbie Becker, a Dallas-based magic duo blending comedy, music, illusion, mentalism and audience participation. Their current official site offers full-scale productions, intimate stand-up programs and virtual shows for corporate groups and entertainment venues across the United States. It documents more than a decade performing together across four continents and forty countries. Direct telephone, email and proposal links confirm active bookings. Their Fool Us appearance presented the duo's large visual style to television, while their broader event work emphasizes clean comedy and customized participation rather than spectacle alone.
