Biography

The Evasons are Jeff and Tessa Evason, a Toronto-based husband-and-wife mentalism duo celebrated for mastering the historic two-person telepathy form known as Second Sight. Their current official site offers an interactive, clean and sophisticated show for corporate events, theatres, colleges, universities, casinos and private audiences. More than four decades of work have taken them to over forty countries and major television productions, including Fool Us. Direct phone and email contacts confirm active international bookings. Their performance combines rapid object identification, prediction, humor and warm audience participation without presenting itself as supernatural fact.
